WHY PRINCE ALBERT WINS

Patented Process is Responsible for Its International Popularity.

Smokers so much appreciate the flavor and coolness and aroma of Prince Albert pipe and cigarette tobacco that they often marvel that this one brand could be so different from others.

The answer to this question is to be found on the reverse side of every Prince Albert package, where you will read: "Process patented July 30th, 1907." That tells the whole story. Prince Albert is made by a patented process that cuts out the bite and parch, which makes the tobacco so mighty agreeable and satisfying to men of every taste of every civilized nation on the globe.

Smokers should realize that this patented process cost three years' continuous work and study and a fortune in money to perfect. But the result has proven to be worth all that was expended upon it, because it has set free men who believed they never could enjoy a pipe or a makin's cigarette.

Prince Albert makes it possible for every man to smoke a pipe or to roll his own cigarettes. And, no matter how tender the tongue Prince Albert cannot bite or parch. That is cut out by the patented process, leaving for the smoker only the joys of the fragrant tobacco.

It is a fact that since Prince Albert "arrived," just about six years ago, it has made three men smoke pipes where one smoked a pipe before!

Love—Armstrong

At a very quiet wedding at the home of Mr. and Mrs. Carl Williams, last Tuesday evening Clyde H. Love and Miss Maudie Armstrong were united in the bonds of holy wedlock, the Rev. J. A. Casady officiating.

Only a very few intimate friends and immediate relatives were present.—Texline Enterprise.

TRAMPEROS.

Mr. and Mrs. R. C. McClellan, Misses Nora and Etta McClellan and Fred J. Holderle were guests at the Rose and Steve Cantrell home Sunday.

Miss Oma and Ina Hammer visited at the Ben Netrow ranch several days last week.

Will Weikle finished a well 52 feet deep with plenty of water on his homestead this week.

Mr. H. Blake has a well cuffed on his place in the same section and there is already a well in that section in which water came within three feet of the top, on the Martin Bishop homestead.

We read of many places and towns having booster clubs. That is something the Tramperos country does not need, as the country speaks for itself. There are 11 families and only two of these who have not proved up living within a two mile circle of the school house. Every place is well improved and not a hissing place without a good well and windmill which is more than many places are able to boast.

Steve Cantrell was a visitor at the Godlove ranch one day last week, but since then Shorty has informed him that this is leap year.

Sucker Flat Shorty was a guest at the Bachelor's ranch one day last week. The ranch is run by Fred J. Holderle and his shepherd dog. Fred does the cooking while Shep does the cow-punching stunt, Fred is some cook.

Henry Smith one of our always smiling young bachelors made a trip to Romero last week. Henry has a smile that never wears off.

Ben Dicken another of our enterprising young bachelors has built a buggy shed and a large granary.

Leap year seems to have taken decided effect in the Thomas country, but has not worked as far south as Tramperos yet.

"Sucker Flat Shorty."

The Old Time Spelling Bee

Folks nowadays don't have much fun

Compared to what we had Back in the old Fourth Reader days, When girls in gingham clad, With pigtailed hanging down their backs (It all came home to me) With boys in top boots met and held An old-time spelling bee.

The teachers took a turn about Pronouncing as we spelled, And when one missed a word, it was The "trapper" who excelled; Ah, that was life—the spelling match Salt of the earth were we Who took part in such battles as The old-time spelling bee.

But ah, that braid of golden hair, The snow, the moonlight pale— The homeward ride—the yielding waist—

And love's sweet oft-told tale! And, ah, the lovelight in those eyes (Not seen on land or sea) God bless the hallowed memories of The old-time spelling bee.

"Ain't it H—?" "God made man frail as a bubble. God made love and love made trouble. God made wine, but he saith it's a sin For man to drink wine to drown trouble in."

Program for Home Economics Club

February 26 at the school house. Beauty in home surroundings.

Roll call.—A Favorite Quotation. 1. Influence of beautiful surroundings.—Mrs. Thompson.

2. Native plants and flowers of New Mexico. Trees and cultivated plants best adapted to our soil and climate.—Mrs. Oibeter.

3. Flower gardening and flower garden clubs.—Mrs. Carl Dunn.

Talk. Mistakes women make in buying groceries. Mrs. W. C. Barnhart.

Help for Bronchial Trouble and Cough

"Foley's Honey and Tar Compound acts more like a food than a medicine." Mr. Will C. Richmond, Ingleswood, Calif., says: "I wish to recommend Foley's Honey and Tar Compound as it has greatly benefited me in my chronic trouble and cough. It acts as a well harmony with nature. It is more like a food than a medicine."

Foley's Honey and Tar Compound has a wonderful quick action on the inflamed and itching mucous membrane of the throat and bronchial tubes. It cures the inflammation over the chest, makes the phlegm easy, and helps the inflamed and itching mucous membrane to heal.

It is the best medicine you can buy, and better than anything you can make, for coughs, colds, spasmodic croup, whooping cough, influenza and bronchitis, coughs, hoarseness, tickling throat and stuffy wheezy breathing. It contains no opiates, and is acceptable to the most sensitive stomach.
